

PUBLIC OPEN HOUSE CRAWFORD BAY HEADLANDS

The RDCK examines the potential to develop parks which have regional significance across the district as suitable land becomes available. Back in 2010 the RDCK acquired a relatively small "toehold" of land along an opened road allowance near the Crawford Bay foreshore as a preliminary step towards a potentially larger project. In the summer of 2017 the private landowner, Kokanee Springs Resort, listed the 28 surrounding parcels for sale as a block on MLS. This prompted the RDCK to authorize staff to further investigate the possibility of establishing a major regional park within the Crawford Bay headlands. The RDCK is holding public open house meetings on December 11th to inform residents about the nature of the land offered for sale and the potential for the lands within the RDCK regional parks framework, including potential economic and tourism benefits for the region.
